

# Creating Hybrid Course Videos

Using Camtasia

# Learning Objective

The learner will choose the correct order of steps to create a screencast recording in Camtasia.

## Follow Along

Follow the instructions to learn the steps required to record a screencast in Camtasia. Click the correct location on each screen showing the Camtasia interface in order to move on to the next screen.

# Click Record

The image shows a dark-themed video editing software interface. At the top left, a red circular button with a white dot in the center is labeled "Record" and is enclosed in a green rectangular box. A large green arrow points from this box towards the center of the interface. The interface includes a left sidebar with various editing tools like "Media", "Annotations", "Transitions", "Behaviors", "Animations", "Cursor Effects", "Voice Narration", and "Audio Effects". The main workspace is titled "Media Bin" and contains a message: "Your Media Bin is empty. Screen recordings and imported media will show up here." with an "Import Media..." button. At the bottom, there is a timeline with markers at 0:00:00:00, 0:00:15:00, 0:00:30:00, 0:00:45:00, 0:01:00:00, and 0:01:15:00. A playhead is positioned at the beginning. Other UI elements include a "Share" button at the top right, a "Properties" button at the bottom right, and a zoom level of 33% at the top center.

Rec 05-30-18

The image shows a video editing software interface. At the top, there is a 'Record' button and a 'Share' button. Below that is a 'Media Bin' containing a video clip named 'Rec 05-30-18'. The main preview window shows a landscape video of a mountain range with a lake in the foreground. A red text box is overlaid on the preview window, containing the text 'Pop-up if wrong area is clicked with hint for correct area and arrow pointing to it'. Below the preview window is a playback control bar with buttons for play, stop, and other functions. The play button is highlighted with a green box, and a green arrow points to it from the bottom. At the bottom of the interface is a timeline with tracks for 'Track 2' and 'Track 1', showing the video clip 'Rec 05-30-18' on Track 1.

# Click Share and Local File to save

The screenshot displays the interface of a video recording application. On the left, a sidebar contains various editing tools such as Media, Annotations, Transitions, Behaviors, Animations, Cursor Effects, Voice Narration, Audio Effects, and Visual Effects. The central area shows a video preview window with a green arrow pointing to a share menu that is open over the video. The share menu includes options like 'Local File...', 'Screencast.com...', 'YouTube...', 'Google Drive...', and 'Share History...'. A red text box with a white border is overlaid on the video, containing the text: 'Pop-up if wrong area is clicked with hint for correct area and arrow pointing to it'. The bottom of the interface features a timeline with a playhead at 00:19:15 and a track labeled 'Track 1' containing a video clip named 'Rec 05-30-18'.

## Try It

Now you will try creating a recording and saving the file on your own – with no hints. On each screen, click the correct location on the Camtasia interface that you learned in the Follow Along exercise.

# [Simulation]

Review Steps

The screenshot shows a video recording software interface. At the top left, there is a 'Record' button. The main interface is divided into a left sidebar with categories like Media, Annotations, Transitions, Behaviors, Animations, Cursor Effects, Voice Narration, and Audio Effects. The central area is labeled 'Media Bin' and contains a message: 'Your Media Bin is empty. Screen recordings and imported media will show up here.' Below this message is an 'Import Media...' button. A large red box with white text is overlaid on the central area, containing the message: '[Pop-up if wrong area is clicked.] Try again!'. At the bottom, there is a timeline with markers at 0:00:00:00, 0:00:15:00, 0:00:30:00, 0:00:45:00, 0:01:00:00, and 0:01:15:00. A play button and a progress bar are also visible.

# [Simulation Continued...]

*Simulation will use the same screens as the Follow Along exercise.*

# Well done!

Congratulations on finishing the **recording a screencast** module for creating hybrid course videos. Feel free to review the steps in the Follow Along or Try It exercises.
